[URGENT RESPONSE TO LETTER FROM STAFF COUNSEL TANIA SCHRAG]

[TRIAL IS ON NOVEMBER 13, 9:00 AM IN DEPARTMENT 79, SUPERIOR COURT OF CALIFORNIA]

Link to remote hearings: https://www.sccscourt.org/general_info/ra_teams/video_hearings_teams.shtml

CONTENTS:

1. Upcoming Trial and hearings
2. Response to Letter from Staff Counsel Tania Schrag

1. UPCOMING TRIAL AND HEARINGS

Trial with Judge Andrea E. Flint, who confirmed personal financial interest in the case, but repetitively refused to recuse 7 (seven) times in a row, therefore repetitively violating CCP 170.1, is on 11/13/2023, 9:00 AM in Department 79 of Superior Court of California. Link to remote hearings: https://www.sccscourt.org/general_info/ra_teams/video_hearings_teams.shtml

Please advise if for investigation purposes it is permitted to make recordings of trial, or take any further actions for protection of integrity and impartiality of the Court proceedings.

Judge Andrea E. Flint confirmed personal financial interest in the case, but knowingly and intentionally continues to violate CCP 170.1 by repetitive refusal to recuse despite clear evidence of personal interest, massive falsifications of court records, removal of signed emergency screener recommendations, by knowingly and intentionally making orders that facilitate child abduction outside of the United States by parent with documented history of child abduction outside of the United States, knowingly ordering full custody to parent with documented history of domestic violence and child and elderly abuse, endorsing child abduction and malicious custody and visitations deprivation in violation of CCP 278.5 by parent with documented history of child abuse, and at the same time ordering no contact to primary parent who protected child from domestic violence and abduction, therefore by such orders knowingly and intentionally violating CFC sec. 3011 and making orders that endanger life of the child and go completely against safety, welfare and best interest of the child.

There are few other upcoming hearings in Department 79 with suspected Judge Flint, who refused to recuse despite confirmation of personal interest in the case:

11/13/2023, 9:00am Final Trial. Judge threatened to make final custody orders on a trial, despite custody matter is bifurcated and there is Custody Review hearing scheduled on 01/18/2024, 1:30pm, and trial is intended solely for finalization of divorce and financial matters based on balance of community assets

and debts

11/21/2023, 1:30pm Request to vacate fraudulent stipulation from 02/08, voided by Respondent's violation of verbal agreements regarding child's safety and visitation.

Respondent promised in exchange for maximum child and spousal support to give relief of visitations with the child, and cooperate in Emergency Screening. Instead, Respondent abducted child to an unknown location, blocked all contact with the child, made impermissible pressure on Emergency Screener and Professional Supervisors, therefore blocking visitations and leading to withdrawal of supervisors. Voided stipulation is requested to be vacated, and spousal support to be terminated, based on attached Dissomaster, supported by the fact that Respondent lied to Court and refused to provide any proofs of income.

12/14/2023, 1:30pm Request to Set aside order 6/29/2023

Judge Flint on hearing 06/29/2023 that was requested to prevent Child Abduction, falsified Court records and absolutely unreasonably removed signed Emergency Screener Dr Mary Rolison recommendations without any consideration. On the same hearing Judge denied Child Abduction Prevention Orders (despite documented history of child abduction outside of the United States by Respondent in 2019-2020 and the fact that at the moment of hearing Child is held hostage in unknown location by Respondent, who blocked all contact with the Child and threatened to abduct Child outside of the United States). On the same hearing Judge Flint absolutely unreasonably denied assigning Minor' Counsel, denied Parenting Counseling, denied Mental Health Treatment to Respondent (recommended by Emergency Screener due to Respondent's documented history of domestic violence, child and elderly abuse), denied relief of visitations, and ordered no contact to primary parent, father (Petitioner), without any consideration of signed Emergency Screener Recommendations and about 50 pieces of evidence and witness statements, filed with the Court.

Judge Flint ordered primary parent, father (Petitioner) no contact with the child and to give up child's passport and all documents to biological mother (Respondent), who has documented history of child abduction outside of the United States, and threatened to abduct and "bury our child in Ukrainian soil, so you'll never see your son again".

It is requested to set aside orders 06/29/2023, get signed Emergency Screener recommendations granted, and have another Custody Review hearing to grant Child Abduction Prevention Orders, assign Minor's Counsel, Parenting Counseling, Mental Health Treatment for Respondent (as recommended by Emergency Screener), and grant relief of custody and visitations to primary parent, Petitioner (including free unsupervised visitations and upcoming Custody Review to move towards healthy co-parenting, that Petitioner offered multiple times, stating July 2022, much before Respondent abducted child).

1/2/2024, 1:30pm Motion to put Respondent to Contempt of Court and Request for Sanctions per CCP 278.5

This is my 2nd motion to put Respondent into Contempt of Court due to child abduction, violation of Court Orders from 10/31/2023, and violation of CCP 278.5. Previous one was denied without any consideration by Judge Flint, who confirmed personal financial interest in this case.

Because Respondent knowingly and intentionally abducted Child to unknown location and blocked all contact with the child, violating CCP 278.5 by maliciously depriving Petitioner his lawful right of custody and visitation,

and because Respondent violated Court orders from 10/31/2022 (ordered by Judge Flint) to participate in cooperate in emergency screening and professionally supervised visitations, by making documented impermissible pressure on Emergency Screener and Professional Supervisors, therefore completely blocking Emergency Screening and Visitaitons,

And because Judge Flint, who confirmed personal financial interest in this case completely ignored all evidence of violation of her orders from 10/31/2023, and completely ignored child abduction and violation of CCP 278.5,

It is requested to put Respondent into Contempt of Court, and sanction according with CCP 278.5

1/18/2024, 1:30pm Custody Review Hearing

It is 2nd Custody Review Hearing - previous one was completely falsified and sabotaged by Judge Flint, who confirmed personal financial interest in this case.

It is requested to review signed Emergency Screener Recommendations (that were unreasonably removed by Judge Flint, who confirmed personal financial interest in this case), and grant Child Abduction Prevention Orders, Mental Health Treatment for Respondent (recommended by Emergency Screener), Minor's Counsel, Parenting Counseling, Custody and visitations relief, including: Full legal custody to primary parent, father (Petitioner), and free unsupervised visitations for primary parent, Petitioner.

It is highly believed, that due to personal financial interest of Judge Flint, she will attempt either sabotage this hearing, or falsify records again, as she did on 06/29/2023.

1/25/2024, 1:30pm Disqualify opposing counsel

1/25/2024, 1:30pm Re-issue new passport for Child with the goal of child abduction of the United States, pre-filing order "Vexatious litigant"

It is my 2nd motion to disqualify opposing counsel Nancy L Roberts for impermissible conflict of interest, impermissible pressure on emergency screener and professional supervisors, blocking emergency screening, leading to withdrawal of professional supervisors and blocking visitations, defamatory completely falsehood allegations and misleading Court by lying in court, massive falsifications and fraud, and for unethical conduct and violation of professional and ethical standards.

Previous motion to disqualify was unreasonably ignored and denied by Judge Flint without any consideration on 08/01/2023, despite multiple evidence and witness statements, filed with the Court (which were completely ignored by judge, who confirmed personal financial interest in this case)

Second hearing is initiated by Nancy L Roberts, absolutely unethical Respondent's attorney, with the goal to obtain orders from Judge Flint to re-issue new passport for my son, with the goal of child abduction outside of the United States. Respondent currently abducted my son to unknown location and blocked all contact with my child, but she never had access to my son's passport after previous child abduction in 2019-2020, when she forced me to sign Travel Authorization Consent, which allows her to travel with my son outside of the United States without my permission for the next 10 years. Respondent attempted to steal my son's passport in July - September 2022, and threatened to abduct and "bury our son in Ukrainian soil, so you will never see your son again".

Nancy L Roberts is manipulating orders from 06/29/2023 when Judge Flint, who confirmed personal financial interest in this case, ordered me to abandon my son and give up passport and documents to Respondent, therefore facilitating abduction of my son outside of the United States. Those orders were done with massive falsification, that included unreasonable removal of Emergency Screener Recommendations, denial of Child Abduction Prevention Orders, denial of Minor's Counsel, denial of Parenting Counseling, denial of Mental Health Treatment for Respondent (recommended by Emergency Screener due to Respondent's documented history of domestic violence, child and elderly abuse, and documented history of Child Abduction outside of the United States).

Judge Flint, who confirmed personal financial interest in his case, completely ignored more than 50 pieces of evidence, and unreasonably removed signed Emergency Screener recommendations without any consideration.

Nancy L Roberts is attempting to obtain order to re-issue new passport for my son with the help of Judge Flint, suspected in bribery, to facilitate abduction of my child outside of the United States by Respondent using:

- New passport, that could be re-issued if Judge Flint will grant request to re-issue new passport;
- Travel Authorization Consent, that Respondent obtained from me during previous child abduction in 2019-2020, by blackmailing me and threatening to never return my son back home if I will not sign consent, that allows her to travel with my son outside of the United States without my permission for the

next 10 years;

- Absence of Child Abduction Prevention Orders - that Judge Flint, suspected in bribery, denied 3 (three) times in a row - including 06/29/2023, when she denied both Child Abduction Prevention Orders, and Emergency Screener Recommendations (that were including Child Abduction Prevention Orders) - which ultimately confirms Judge Flint's personal interest in this case and extremely deep understanding of which exactly orders must be denied to facilitate Child Abduction outside of the United States;
- Determination of Respondent to abduct my son outside of the United States, which she clearly threatened to implement and abduct and "bury our son in Ukrainian soil, so you will never see him again".

Nancy L Roberts, with the help of Judge Flint, who confirmed personal financial interest in this case, is attempting to silence me completely (self-represented Petitioner, primary parent and loving father), by requesting falsehood pre-filing order "Vexatious litigant" to prevent me from filing any motions (because taking into account complete financial ruin in which Respondent put me by this divorce, I will not have money to post a bond in a few thousand dollars for filing motions - while fraud and falsifications of Nancy L Roberts and Judge Flint will require my responses, which require to be in motions).

Also, pre-filing order "Vexatious litigant" is pursuing goal of getting unfair advantage for Nancy L Roberts - to file another motion to re-issue new passport for my son (if previous one will be denied by some miracle), and to ensure that I cannot oppose that motion - therefore facilitating abduction of my son outside of the United States by mother-abuser with mental health issues and documented history of child abduction outside of the United States, who threatened to "bury our son in Ukrainian soil so you will never see him again".

Nancy L Roberts attempted to silence me multiple times, including motions "In limine" to prevent me from filing evidence with the Court (despite this evidence is never taken into consideration by Judge Flint, who confirmed personal financial interest in this case), and pre-filing order "Vexatious litigant" to silence me from filing any motions with the Court (and therefore to give Nancy L Roberts freedom to do whatever falsifications she wants, without any opposition from my side).

2. RESPONSE TO LETTER FROM STAFF COUNSEL TANIA SCHRAG

Please find attached Letter and requested evidence from hearing 10/25/2023

Please see below response (which is also available as PDF in attachments - "01 - Response to Judicial Commission Regarding Recusal Hearing 2023-10-25")

RESPONSE REGARDING RECUSAL HEARING ON OCTOBER 25, 2023

Dear Staff Counsel Tania Schrag,

Thank you very much for your response to my Complaint to Commission on Judicial Performance. Your prompt attention to this matter is very important to me at this challenging time.

Regarding hearing on October 25, 2023:

1. How many people were in the courtroom?
 - About 15 people in courtroom and about 10 people in Teams
2. How many people did the judge ask to leave?
 - Judge Flint requested everybody to leave courtroom and Teams, and kicked from Teams people who were not responding (maybe stepped out from call or something)
3. Did anyone other than the judge and the complainant remain in the courtroom?
 - No, Judge ensured that no witnesses present. Both courtroom and Teams were empty. Clerk might be present – but from my communications with Clerk, she usually falsifies court records helping Judge to keep falsifications consistent (in my previous complaints I attached email threads of communication with Clerk who removed statements on record and refused explain reasons why docket was falsified).
4. How did the hearing end?
 - Below are details on 2 key orders of Judge Flint on October 25, 2023 for:
(1) Request for Court Reporter, and (2) Motion to Recuse Judge for Cause No. 7:

- (1) REQUEST FOR COURT REPORTER WITH FEE WAIVER:

Judge sanctioned me for requesting Court Reporter by ordering me obligatory payments \$200/month – and explained it by “you earn too much, you must pay”.

On my question if I understand correctly that she is ordering me to starve to death, she answered: “Yes”.

I requested Court Reporter with Fee Waiver because Judge is making massive systematic falsifications of Court records and completely ignores evidence and witness statements (and Clerk helps Judge to falsify court records and minute orders).

Because Judge is prohibiting recording in courtroom, manipulates Court proceedings so our hearing is always either last in the list, or simply removes all witnesses from our hearings (like it was on October 25, 2023) – my last hope was to get Court Reporter to document what’s going on in the Courtroom on upcoming Trial on November 13, 9:00 AM (because Judge threatened to make final custody orders and wrongfully assign permanent full custody to mother-abuser, against the law and Court procedures, despite custody is bifurcated and we have separate Custody Review hearing in January).

A bit of explanation why \$200/month obligatory payments is a red flag indicator (and it literally leads me to starving to death):

Judge Flint made this order despite I requested fee waiver and filed for Judge’s consideration all my paystubs, bank and loan statements, child and spousal support bills that in total make my monthly cashflow close to \$450 (not leaving any money for renting home or covering basic needs, not saying about paying \$200 monthly for court reporter).

Ordering additional financial sanctions like this makes paying for paid supervised visitations with my son completely impossible - I’m already seeing my son only once in a one or two months, barely able to scrape ~\$240 for single visitation with report.

Respondent and her extremely unethical attorney made impermissible pressure on Emergency Screener and Professional Supervisors, sending them defamatory falsehood allegations (emails with these pressuring defamatory allegations are captured in evidence, filed with the Court, but all evidence was completely ignored by Judge Flint).

By making pressure with defamatory false allegations on Screener and Professional Supervisors, Respondent kicked out and led to withdrawal few good supervisors with reasonable rates – and I’m forced to pick any supervisor available, overpay just to ensure that visits with my son are still happening (otherwise Respondent gets legal precedent of “abandoned child” and can legally re-issue new passport for my son).

Continuing visitations and blocking re-issuing new passport is critical, to prevent abduction of my son by Respondent outside of the United States – because Respondent has Travel Authorization consent signed by me during previous child abduction in 2019-2020, which allows her to abduct my son again outside of the United States to Ukraine if she will get Max's passport.

Respondent threatened to never return my son back home to the United States from Ukraine. Literally she said that she will “bury our son in Ukrainian soil, so you will never see your son again”.

Those were words of woman who systematically was beating my son, humiliating my boy, making my son suffer from pain and cry (motivating it by “child must suffer and cry”), and who abducted my child with falsified DVRO in September 2022 simply because I prohibited her beating my son, prevented her from abduction of my son outside of the United States, and warned that if domestic violence will not stop we'll have to divorce to protect our son from domestic violence.

Though, Judge Flint ignored all evidence and witness statements, denied Child Abduction prevention orders, removed Emergency Screener Recommendations from Court records, granted full custody to violent abuser with documented history of child and elderly abuse, and ordered me to give up passport of my son to Respondent, violent abuser with documented history of child abduction outside of the United States (which in conjunction with absence of Child Abduction Prevention orders, that Judge Flint denied every time when I requested, last time on June 29, 2023 means that Judge granted abduction of my son outside of the United States by mother-abuser)

Judge Flint ordered me no contact with my son, and only paid supervised visits with advice to abandon my son and forget him forever - with the clear goal to enforce (legally and financially) abduction of my son outside of the United States by Respondent, who has documented history of child abduction outside of the United States, and currently abducted my son to unknown location, refused to share where she holds my son, and blocked all visits and even phone calls, in attempt to obtain my son's passport through Court and abduct my son outside of the United States “so you will never see your child again”.

If Respondent will abduct my son outside of the United States – there will be no Custody Review, no Parenting Counseling, and quite possible that Respondent will implement her threat to “bury our son”, taking into account bruises on my son's body observed even during paid supervised visitations, and how Respondent violently put into terminal condition my grandmom, defenseless 95 years old senior woman with disabilities – who Respondent kicked from home causing terminal condition less than a month after granny returned from hospital with pre-stroke condition, caused by Respondent's repeated violence.

Judge had all filed bank statements on hand, and knows very well, that year ago she ordered maximum legally possible child and spousal support, without any consideration of our financial situation or community debts and assets – ignoring fact that Respondent refused to provide her paystubs and lied to Court that she does not work and does not have any income; while ordering me to pay for all community debts (~\$100,000 in total, ~\$3,300 monthly payments), attorney fees and emergency screening (~\$45,000 in total) and absolutely unreasonable paid supervised visitations (~\$2,500 payments at best, usually more) – which after year of devastating expenses lead me on a brink of bankruptcy and homelessness (cashflow \$450 doesn't allow to rent any home, and I'm for sure not able to pay for visits to see my son).

The worst is that Judge Flint's order of paid supervised visitations from June 29, 2023 was not supported by any fact from the case – it went in opposite to signed Emergency Screener recommendations (that Judge Flint unreasonably removed without any considerations), evidence and witness statements (about 50 pieces, filed with the Court, but never considered by Judge Flint).

I've been protecting my son from being beaten and humiliated, from being abducted by violent mother-

abuser, prevented her from cancelling Max's Green Card (so Max got Green Card, sponsored by me, despite mother's attempt to cancel it), prevented her from stealing Max's passport and from repeating abduction outside of the United States (again after 2019-2020 abduction) to country where Child's life will be endangered due to ongoing war.

Judge Flint knowingly and intentionally ordered full custody to violent abuser with documented history of child abuse and abduction, and ordered me no contact with my son, while sanctioning me financially to force me to abandon my son and give up my son's documents – knowing that this endangers life of my son, who already more than year is in hands of extremely awful parent, and was coming with bruises on visitations (that Judge Flint is making completely impossible by additional financial sanctions).

On June 29, 2023, Judge Flint, knowing all these facts and having on file about 50 pieces of evidence, filed with the court, and knowing that I am on a brink of bankruptcy and homelessness after almost year of devastating court expenses, and I cannot afford paid visitations, Judge knowingly and intentionally ordered no contact with my son, and only paid professionally supervised visits, and explained it in the Courtroom by "you must pay for your mistakes". As usually, there was no court reporter – and no records so far except minute order that barely describes what happened in Courtroom.

In addition, knowing that my son is in high risk of abduction outside of the United States, Judge ordered me to abandon my son and give up passport of my son and all my son's documents to Respondent, violent abuser with documented history of child abduction, who at the moment of hearing abducted my son to unknown location and blocked all contact with my son, even phone calls.

Judge ordered me to give up passport of my son – so Respondent (who has Travel Authorization consent signed by me, that allows her to travel with my son abroad without my permission for the next 10 years), can freely abduct my son outside of the United States – because the only thing that stopped her from abduction of my son abroad was absence of Max's passport (Child Abduction Prevention orders were knowingly and intentionally denied by Judge Flint).

Judge Flint, knowing all these facts, and having more than 50 pieces of evidence and witness statements, absolutely unreasonably removed Emergency Screener Recommendations, ignored all evidence and witness statements, and ordered me, primary parent, no contact with my son, and only paid professionally supervised visitations – despite I clearly stated, that after year of exhausting court-related expenses I'm on the edge of bankruptcy and homelessness, and I simply cannot afford paid visitations anymore.

Therefore, Judge already punished me more than legally or reasonably possible (without any reasons for that), and ordering additional sanction in amount \$200/month is simply absolutely violent tool to enforce that I will not be able to pay even for those rare once in a month paid visitations to see my son (because it's financially impossible – I'm already in a state of complete financial collapse).

- (2) MOTION TO RECUSE JUDGE FOR CAUSE NO. 7

In the end of hearing Judge completely ignored the fact that there is Motion to Recuse for Cause filed with the Court and served to her personally – therefore I had to bring it to Judge's attention.

I asked if Judge considers Motion to Recuse.

Judge respondent that she doesn't plan to discuss Recusal with me – and that she already filed response as usually.

By "as usually" Judge means that she refused to recuse 7 (seven) times in a row, each time responding with the same template response, striking motion and completely denying any arguments and evidence.

When I asked Judge, do I correctly understand that she confirms her personal financial interest in the

case (since she refused to recuse seven times in a row and that clearly confirms personal interest in the case), and that she refuses to clear allegations of bribery by conscious recusal – Judge Flint responded: “Yes, I don’t care. I will make you Trial on November 13 – and you’d see what would happen”.

Honestly, that sounds scary from Judge who clearly has personal interest in the case, who already did substantial (and most probably very long-lasting) damage, and who is suspected in receiving bribe from Respondent in April 2023 (when Respondent’s father, well known Ukrainian criminal, experienced in bribing judges and governmental officials, brought lump sum of cash across American border). Abduction of my son in April 2023 and blocking all contact with my son, even phone calls, is too obviously coinciding with this period of suspected bribery – and that means that they most probably blocked contact with my son because he could see or hear discussions or even facilitation of bribery.

It’s also important to notice that Judge changed her position on the case radically exactly after April 2023. Starting June 2023 she falsified court records and removed Emergency Screener Recommendations without any consideration, refused to consider any of about 50 pieces of evidence and witness statements, and ordered full custody to violent abuser with documented history of child and elderly abuse, while ordering no-contact to primary parent, me, who was protecting Child from domestic violence and abduction outside of the United States. The same Judge ordered me to give up Child’s documents and therefore allow abduction of the Child outside of the United States by parent, who has documented history of Child Abduction, and who clearly stated threats to abduct and harm my son after abduction abroad.

Taking into account repetitive refusal to recuse (seven times in a row), massive falsifications of court records, demonstrative threats and punishment despite clear evidence and witness statements – and considering that Judge Flint personally confirmed personal financial interest in this case, I suspect that Judge said truth about her personal financial interest in this case, and that Judge knowingly and intentionally repetitively (seven times) violated CCP 170.1, which prescribes Judge to recuse from presiding over the matter in case of personal interest in the case.

Minute order is attached.

Unfortunately, Judge Flint always arranges hearings on our case 22FL003144 on dates when there is no court reporter – therefore transcript is not available as usually.

Even more, on October 25, 2023, Judge sanctioned me for requesting court reporter – demonstrating that she is extremely unhappy with my request, and even ready to punish me for trying to document hearing with the help of court reporter.

Regarding recordings – there are multiple placards in the Court that state that recording during hearing is prohibited by law. Judge Flint always repeatedly states that it is prohibited by law to record hearings.

Please let me know if for the sake of investigation, I need to make recording of the hearing. There will be Trial on November 13, 9:00 AM in Department 79, when Judge threatened to make some completely legally incorrect orders, including final custody orders, despite custody matter is bifurcated from main divorce case. There also will be few more small hearings in December and January when it’s probably possible to arrange recording if you can help me with advice how to make it.

Please feel free to reach me directly with instructions of further actions:

Phone: (408) 518-0088,

Email: Constantine.Mars@gmail.com

Thank you for your prompt attention to this matter. I look forward to further instructions on how to handle this alarming and dangerous situation with obviously prejudiced and quite possibly bribed judge.

[ENCLOSED: MINUTE ORDER, MOTION TO RECUSE JUDICIAL OFFICER FOR CAUSE CCP 170.1, LIST OF EVIDENCE FOR MOTION TO RECUSE JUDGE FOR CAUSE, JUDGE’S ORDER STRIKING NO. 7 DENYING MOTION TO RECUSE)
